Enhancements and bug fixes

• The Research Suite branding has been updated to reflect Cayuse LLC, independent from Evisions Inc.

• Inadvertent double-clicking on the Add Note button in a Proposal’s Notes tab no longer creates duplicate notes.

• Inadvertent double-clicking on the Award Administration Attachment upload section no longer creates duplicate attachments.

• Inadvertent double clicking upon creating SP records (proposals, awards, projects) no longer creates duplicate records.
Enhancements and bug fixes

- When navigating away from the proposal budget page, user is no longer asked to save changes when no changes were made.
- Proposal load times are no longer increased due to SP and 424 pairing.
- Dates and times displayed in SP will now always be consistent with customer time zone.
- Adjusting the Project End Date on the Project General Info tab now appropriately updates the End Date in the header of the Project Record.
Enhancements and bug fixes

• Date selection has been improved throughout the application. Users now have the option to manually enter dates or select them from the calendar icon. The tool used to pick dates is now the same for all applications: SP, Backbone, and Workflow.

• The Proposal delete button was moved to reduce unintended deletions.
